Research & Laboratory

Testing and growth of bacteria cultures and microorganisms

Biology & Microbiology

Testing and growth of bacteria cultures and microorganisms

QA/QC Food & Beverage

Testing and growth of bacteria cultures and microorganisms

Simulated stability testing conditions, storage, packaging & transport

Life Sciences

Animal, Veterinary Labs, Clinics; organisms, insect development

Water Treatment / BOD

Biological Oxygen Demand, study of microorganisms, aerobic bacteria & oxidization of organic matter.

Incucell 55

Incucell 707 w/ optional glass window

The **Incucell natural convection** is designed for the safe treatment of microbiological cultures. The Incucells' soft natural gravity air convection greatly reduces particle movement.

Incucell V patented forced / mechanical air movement system provides the advantage of precise temperature distribution in the chamber. The **Incucell** and **Incucell V** can be used in biological and microbiological laboratories, quality control tests for pharmacology, cosmetics, veterinary medicine & food and beverage processing are but a few of the applications.

Natural Convection & Forced Air Convection

Chamber Volumes 22 (.8), 55 (2), 111 (4), 222 (8), 404 (14.3), 707 (25) liters (ft³)

Working temperatures

Incucell 5°C above ambient up to 99.9°C

Incucell V 10°C above ambient up to 99.9°C

Incucell V available with 160 °C decontamination & anti-dry

Inner Glass Door, safety glass

Double Wall Removable inner chamber for sterilization

Chamber AISI 304 seamless stainless steel

Fuzzy Logic ensures accurate temperatures w/out overshooting & flexible and repeatable cycles

Smart Handle with four point locking

Comfort Control Panel with Fuzzy Logic Microprocessor

- 6 programs – 40 segments – for varying loads and parameters
- chip card system for individual program storage
- time range 0 – 16 years with 1 min. intervals
- clear user friendly LCD display
- RS 232 – interface for printer or PC
- delayed heating start & stop function
- programming temperature ramps
- digital safety thermostat
- acoustic and visual alarms
- patented forced air system w/controllable air – flow rate of 10 -100% with Incucell V

Standard Control Panel with Fuzzy Logic Microprocessor

- 3 adjustable programs
- RS232 – interface for printer or PC
- delayed heating start & stop
- acoustic and visual alarm
- time range 99 hours 59 minutes
- digital safety thermostat
- manual control of exhaust port
- manual control of exhaust and air inflow Incucell V
- patented forced air system with controllable air-flow rate of 50 – 100% with Incucell V

Standard Controller Options

- access ports 25, 50,100 mm
- key door lock
- Ethernet communication port
- flexible PT 100 sensor
- stainless steel exterior
- WarmComm 4.0B Software
- AISI 316 stainless steel chamber

Comfort Controller Options

- Access ports 25, 50, 100mm
- automatic and key door lock
- HEPA-filter for INCUCELL V units
- Programmable inner socket 115V
- WarmComm 4.0P & 4.0F software
- BMS monitoring relay alarm contacts
- flexible PT 100 sensor
- anti-dry feature (INCUCELL V)
- 160°C decontamination (excludes 404 & 707)
- stainless steel exterior
- AISI 316 stainless steel chamber
